

confidence of his countrymen, by some vile treachery, than he was immediately initiated into all the secrets of that anti-Canadian nuisance, the Hon. Legislative Council, whose tyranny is effectually bringing about a severance of the Canadas from the British empire. It is with the desire to bring into their body all the Canadian renegades, that the notorious Hon. P. D. Dehartz owes his dishonorable celebrity and his introduction to the Council. The character of the Canadian members of that body is exemplified by the fact that two honorable exceptions only exist. Those are truly honorable men who have resisted the numerous and powerful offers made to them to insure their co-operation in the enslaving of the people. We must abstain from naming those two respected and esteemed patriots; for due praise conferred upon them by those who styled rebels, would expose those honest and fearless men to the unrelenting vengeance of the loyalists. But the country depends upon its friends, and as the late disappointed dictator has it, "Le jour viendra."

† This is the motto on the arms of Lord Durham.

CONFISCATION.

Gov. Thomson, who was sent from England to pacify the Canadians and to bring about a new era of peace in those distracted Colonies, is pursuing the same mad schemes of his predecessor, the black-hearted Colborne. Already is the *Official Quebec Gazette*, filled up with the advertisements of property to be sold, the remnant of what the brutal and savage soldiers had burned and devastated, and all that is left to the widows and fatherless children of those brave men, who, after an illegal and mock trial before a prejudiced Court, have been hanged or sent into exile. Could not Mr. Poulett Thomson leave those properties to the heart-broken and mourning widows of those who have been butchered by Sir John? Does he covet the last morsel that was left to the unprotected mothers and helpless children of those fathers who have suffered so much for the cause of liberty? Is it not enough that the husbands and fathers had so cruelly suffered. We have always said that there was no confidence to be put in Mr. Thomson's mission, and every day discloses new acts of the Governor to confirm our opinion.

The *Official Gazette* of Quebec contains the advertisements for the sale by writ of the immovable property of 19 of those found guilty of high treason by the court martial, among whom some have been executed and others sent into banishment. These sales are announced in virtue of writs of *alias fieri facias*. The names of those whose properties are to be sold, are:

It is our painful duty to record the death of Guillaume J. L. Vallee, Esq., M. D., which took place at Montreal on Sunday the 8th instant, after a protracted illness of palsy. Dr. Vallee died at the age of 55 years. He was an ornament to society, both by his talents and skill as a physician and by his virtues as a citizen. He made a noble use of the large fortune which was at his command. The poor always found in him a benefactor. His money, to our knowledge, maintained and educated many orphans. At his expense, too, was a monument built to the memory of the estimable Dr. Tracey, the original Editor and proprietor of the *Montreal Vindicator*. He was a graduate of the Medical Colleges of Edinburgh and of Paris; physician to the Montreal General Hospital and Hotel Dieu, and also to the Grey and Black Nuns; was elected twice a member of the

Medical Board of Montreal, and also Alderman of the City. Dr. Vallee had also been for several years a lecturer on Pharmacy and *Materia Medica*. He was kept in jail by Colborne several months last fall, came out very ill, from which he never entirely recovered. To the Canadian public, and particularly to the citizens of Montreal, his loss is irreparable.

We are sorry to learn that the wife of Mr. John Montgomery, who escaped in the summer of 1838, from Fort Henry, Kingston, died suddenly at Rochester on the 30th ultimo.

FINANCIAL OPERATIONS.

Paper money at a discount—Signs of another SUSPENSION—APPREHENDED bankruptcy. Two extensive banking companies have been kidnapped lately, in Canada, one at Dunham and the other in Barford and Barnston. Shareholders, Deposits and all, have been removed to the Montreal and Sherbrooke vaults for safe keeping.—It is said also that mint-drops of their own coinage were plenty among them; if so, it is a pity they were disturbed till they had succeeded in regulating the currency in Canada, for at present it is in a very deranged state.

The Dunham company had plates on 14 banks, among which was found one of 50 on the U. S. Bank. The rogues, who had taken in the public so long, were themselves taken in at last, and well do they merit the punishment that awaits them.

Four men were lately arrested at Chateaugay having in their possession fourteen thousand forged notes, purporting to be of the Montreal Bank.

Geo. W. Gates, of Lunenburg, N. H. who has received the North American from No 1 to 34, sent \$1 and ordered it discontinued, is informed that there is yet a balance of 33 cents our due.

There is an editorial in a recent number of the Montreal Courier worthy of note.—The following paragraph concerning the fate of the Canadas, exhibits the character of it.

"We believe this country is doomed not to be British long; the option is left to us of becoming Yankees or French, and what Englishman will hesitate? *Notre parti est pris*. We are perfectly serious when we say 'we believe Canada will not long be British.' It is a long story, to give all our reasons, and it is a story to make a Briton weep, and dash his clenched hand against a stone wall; we therefore don't like to commence it, at all events, not now."

Ominous.—The Western Statesman, published at Marshal, Calhoun county, Michigan says, the Indians in Western Michigan disappeared some six or eight weeks since, and, upon inquiry, we learn that they are and always have been dissatisfied with some of the treaties made by the general government respecting their reservations—that they will yet have them—that all the warriors have taken their rifles and gone to Canada.

DIED. At Ste. Anne De La Perade, District of Three Rivers, on the 23d ultimo, Jean Charles Christophe Brazeau, Esq. Physician, at the age of 32.

WANTED, JUST NOW, CASH and all sort of PRODUCE, in payment for the *North American*.

Benefit of Advertising.—Of all the facilities for business, afforded by newspapers, advertising columns afford the greatest. They put it into every man's power to send his business card into houses and families; to make himself ever present to speak for his own cause, whenever the discussion of a subject interesting to himself comes up. If he is a dry goods dealer and in the family sewing circle, and the want of any article of clothing, or if any ornament is spoken of, the newspaper tells the story, and directs where they may at once supply themselves. The stove dealer, coal dealer, the milliner, tailor, shoemaker, grocer, baker and in fact every tradesman or dealer, whose craft ministers to the comforts of the family or individual, finds his best and surest friend in the Newspaper.

FIRST RATE BUSINESS.—A doctor in Vermont had a son who studied his father's profession, removed to a distant state, married, and went into practice. After a lapse of about three years, the father called his son, and during the visit he requested the latter to take him around his "ride" that he might see the extent of his son's practice. During the excursion the old gentleman remarked, two new meeting houses, with grave-yards attached, which the younger informed him, had both been erected since the residence there. He also told his father that he had very frequent calls to a distance from his regular circuit. Upon the old gentleman's return home, his wife asked him "how Fred was doing." "Well—very well—first rate," he replied: "he has already filled one grave-yard full and another nearly so, and is doing a pretty fair chance business all about in other parts of the country."
